Division Description

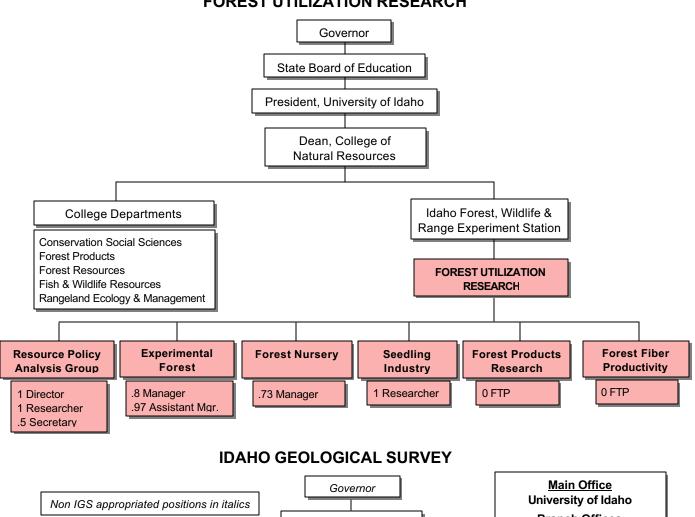

The following seven programs comprise the Special Programs:

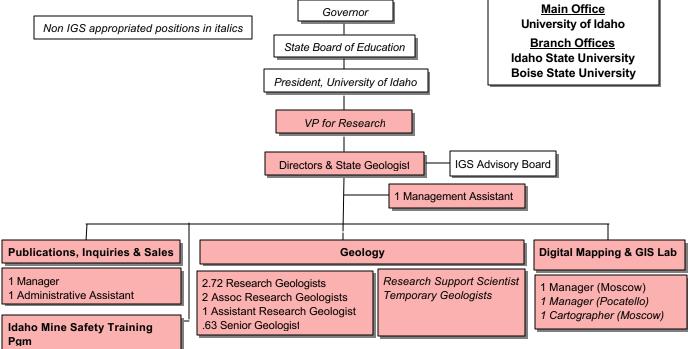

- 1. The Forest Utilization Research (FUR) program, located at the University of Idaho, conducts research and analyzes policy to increase the productivity of Idaho's forests.
- 2. The Idaho Geological Survey (IGS), headquartered at the University of Idaho with field offices at BSU and ISU, collects data and conducts research on Idaho's geologic and mineral-based assets.
- 3. The Scholarships & Grants program, administered by the Office of the State Board of Education, manages ten scholarship and grant programs available to students attending Idaho's postsecondary educational institutions.
- 4. The Museum of Natural History, located at Idaho State University, preserves, expands, and disseminates knowledge of the natural history of Idaho and the intermountain West.
- 5. The Idaho Small Business Development Centers (ISBDC), headquartered at Boise State University, deliver counseling, training, and technical support services to small businesses to encourage their survival and growth.
- 6. The Idaho Council on Economic Education, established in 1972, is hosted by Boise State University and works through ISU, U of I and CSI to provide training to teachers and students in economics and personal financial literacy in support of Idaho's established Educational Achievement Standards.
- 7. Prior to FY 2003, TechHelp was part of the Idaho Small Business Development Centers. It is now a stand alone program that continues to provide manufacturing consulting services to small and medium sized companies. TechHelp specialists provide technical and professional assistance, training and information to Idaho manufacturers, processors and inventors to strengthen their global competitiveness through product and process improvements. TechHelp is a partnership of Idaho's three state universities and an affiliate of the National Institute of Standards and Technology Manufacturing Extension Partnership. It is also Idaho's Economic Development Administration University Center, targeting economically distressed areas of Idaho.

		Total	\$7,944,100	\$18,308,000

^{*} FY 2007 appropriation and FY 2008 request includes \$43,200 in unallocated federal spending authority.

Idaho Robert R. Lee Promise Scholarship – Category A: Provides approximately 100 renewable scholarships each year to outstanding Idaho high school seniors who plan to pursue postsecondary academic or professional-technical studies at one of Idaho's public or private institutions of higher education. Awardees are selected on the basis of class rank, ACT scores and GPA. The award amount is \$3,000 per year, renewable up to four years for academic programs or for the term of the professional-technical program (up to three years). For the 2006-2007 academic year, 37 new scholarships were awarded to freshmen. In total, 110 recipients will receive an annual award of \$3,000.

Idaho Robert R. Lee Promise Scholarship – Category B: Provides up to \$600 per semester, including any 1:1 match amounts from participating institutions, for all Idaho students with a grade point average of at least 3.0 or an ACT score of at least 20. The actual award amount is determined by the State Board of Education and is subject to available funding. These scholarships are limited to two years and to students younger than 22 years of age. Awardees must maintain at least a 2.5 GPA to remain eligible. An average of 8,250 students will qualify for this scholarship for the 2006-2007 academic year.

<u>Atwell Parry Work Study Program</u>: An employment program designed to allow resident students with financial or educational need to earn funds to assist in attending accredited institutions of higher education in Idaho. Institutions provide a 20-percent match for on-campus jobs, off-campus employers provide a 50% match. This program provides an average award of \$952 to approximately 1,546 students.

Minority / "At Risk" Student Scholarship Program: Provided 36 scholarships per year to Idaho students who are at-risk of failing to achieve their educational goals because of cultural, economic, social or physical circumstances (e.g. disabilities). The award can be up to \$3,000 per year for four years. To qualify, an Idaho graduate must meet three of the following five criteria: (1) be a first-generation college student, (2) be handicapped, (3) be a migrant farm worker or the dependent of a migrant farm worker, (4) have a substantial financial need, (5) be a member of an ethnic minority historically under-represented in higher education. A total of 36 students are currently receiving the \$3,000 scholarship for the 2006-2007 academic year.

<u>Teachers/Nurses Loan Forgiveness Program</u>: Provides loans equal to full-time student fees for selected nursing and teacher education students. Loans are forgiven if the recipient teaches or practices in Idaho for two years after graduation. The law allows up to 16 new awards per year for teachers and 13 for nurses.

Special Programs Agency Profile

<u>Freedom Scholarship</u> (fee waiver): Formerly known as the POW/MIA scholarship, this provides tuition and fees plus up to \$500 per semester for books and on-campus housing and subsistence to children of Idaho citizens determined to have been prisoners of war, missing in action, or killed in action in any armed conflict of which the United States was a party. Awardees must attend an Idaho public college or university.

<u>Public Safety Officer Scholarship (fee waiver)</u>: Provides tuition and fees plus up to \$500 for books per semester and on-campus housing and meals to children of Idaho citizens who have been killed or disabled in the line of duty while employed in Idaho as a public safety officer. Awardees must attend an Idaho public college or university. There are approximately 15 dependents that may be eligible for the scholarship within the next 10 years.

"Grow Your Own" Teacher Corp Scholarship: Provides scholarships for instructional assistants employed by local school districts through programs leading to an AA/AS or BA/BS degree in education with an emphasis on bilingual education or an English as a Second Language (ESL) endorsement. The Colleges of Education will work with local school districts and instructional assistants to achieve teacher certification, thereby providing a career ladder for minorities to become certified teachers while they remain on the job. This program was designed to address the growing population of non-English speaking children in Idaho public schools. Recipients receive up to 90% of the cost of their student fees per year.

Leveraging Educational Assistance Program (LEAP/SLEAP): A federal grant program with a state match requirement that is available to students with demonstrable financial need. Students may attend any public or private institution of higher education in Idaho. Although more than 95% of the recipients are Idaho residents, there is no residency requirement. In the 2005-2006 academic year, 1,584 recipients received an average LEAP award of \$449. The SLEAP program provides approximately 282 awards of \$531.

Byrd Honors Scholarship Program: A federally funded, state-administered program awarded on the basis of merit. The award ranges up to \$1,500 per year to support a maximum of four years of study to outstanding high school seniors who show promise of continued academic achievement in postsecondary education. A total of 140 students received the scholarship in the 2006-2007 academic year, 53 of whom attend Idaho institutions.
